**Statutes No. 593 to 642 regarding grant of
Autonomous Status to Affiliated College /
Recognised Institution / University Department /
University Institution, passed by the Senate
at its Special Meeting
held on 4th December, 2001.**

+++++

S.593. When the system of affiliating Colleges to State Universities was designed, the number of Colleges and the Universities were very small and Universities could supervise the working of the affiliated Colleges very easily. The Universities were acting as examining body and awarding the degrees on behalf of the Colleges. The Colleges looked towards the Universities for any change in the education system and curricula. The academic decision also need quicker pace for making the innovations and designing curricula methods more relevant to the areas in which an institution works.

Due to the phenomenal growth of higher education it has become difficult to keep pace with the requirement of the society. The present affiliating system does not allow the required freedom to the college to meet the demands cast upon them. The existence of large number of affiliated Colleges in the universities has become a drag on the process of modernisation and improvement of standards because of the compulsion to prescribe in identical curricula teaching system and examination system for all affiliated colleges and the compulsion to set standards which are attainable by even the weak colleges, the prescription of the universities tends to keep standards low. The colleges which have the potential to implement an academic programme to higher standard do not have the freedom to conduct such courses or teaching system or examining system. The decision for bringing about innovation and the implementation can be taken quickly in the smaller body.

The various Education Commissions have also recommended that the University departments, Colleges and teachers should enjoy the full academic freedom in development of curricula, teaching methods and conduct of examination. The Education Commissions recommended autonomy for colleges. This recommendation is also reiterated in the National Policy on Education, 1986 and revised in 1992,
